Glossary for column headings:

Term	Explanation
Select	(refer to the above table)
School	The institution offering the course
CRN	Course Reference Number: this is the unique identifier associated with a specific course and used by the system to access information related to that course.
Subj	The subject area the course is associated with.
Crse	The course level identifier.
Sec	The section number for a particular offering of the course.
Cmp	The campus where the course section is offered.
Cred	The credit hours awarded upon successful completion of the course.
Title	The title of the course.
Days	The days of the week when the course section meets. M = Monday T = Tuesday W = Wednesday R = Thursday F = Friday S = Saturday U = Sunday
Time	The times of day when the course section meets.
Cap	The seating capacity for the course section.
Rem	The number of open seats currently available for this course section.
WL Cap	The wait list capacity for the course section. If there are currently no open seats available in a section, this number represents the total number of students that can sign up to be considered for enrollment into the section.
WL Act	The number of students actively on the wait list for the course section.
WL Rem	The number of students that can still get on the wait list for the course section.
XL Cap	The cross-list seating capacity for the course section. Cross-listed sections are any two that meet in the same room at the same time. This number reflects the total seating capacity for the room and the upper limit on the number of students in the room at any one time.
XL Act	The total number of students actively enrolled in all associated cross-listed sections.
