- **Continuing students who have not had a 12-month lapse in enrollment will be allowed to use the requirements listed in any catalog published while continuously attending the college.**

Associate of Arts and Associate of Science Degrees with Designations
GUARANTEED TRANSFERABILITY

of Associate of Arts Degree and Associate of Science Degree to Colorado Public Four-Year Colleges and Universities

Colorado's agreement between public colleges and universities guarantees that when a student completes an A.A. or A.S. Degree— at least 60 semester credit hours of coursework completed with a grade of "C" or better in every course— a student may transfer to a public baccalaureate program with a Liberal Arts and Sciences major (e.g., English, geography, biology) and graduate after earning an additional 60 semester credit hours. Courses with an "S/U" grade will not be eligible for Guaranteed Transferability. While a student is guaranteed not to have to complete more than 60 semester hours to graduate, completing a baccalaureate degree within two years depends on the number of credits a student completes each semester at the four-year institution, course sequencing in the student's major (e.g., some upper-division major courses require that a student first complete lower-division major courses), as well as course availability.

Associate Degrees with Designations provide transfer pathways to Colorado state four-year colleges and universities in specified liberal arts and science designations. Additional Information about the articulation agreements can be found at http://highered.colorado.gov/Academics/Transfers/ .

The following four year schools participate in this agreement:

Adams State University
Colorado Mesa University
Colorado State University-Ft Collins
Colorado State University-Pueblo
Fort Lewis College
Metropolitan State University of Denver
University of Colorado Boulder
University of Colorado Colorado Springs
University of Colorado Denver
University of Northern Colorado
Western State Colorado University

Many other majors also require that students select specific courses from the gtPathways courses. Students should contact a transfer advisor at the earliest opportunity to review appropriate transfer guides. These guides indicate which lower division courses are required for articulated programs, or are most appropriate for the student's major. These guides also indicate the appropriate prerequisites for sequenced coursework that should be taken before transferring to a four-year college.
Transfer courses will be evaluated for FRCC course equivalency and applied to degree requirements according to state and college policy. Completion of FRCC equivalent guaranteed transfer (gt) course requirements from any regionally accredited institution will meet FRCC degree requirements.

Credit earned through prior learning methodologies (including CLEP, Advanced Placement, International Baccalaureate, articulation, military, corporate, challenge exam, portfolio credit, substitutions, correspondence courses, or independent study or through transfer credit from other colleges) may meet FRCC degree requirements. A student who is awarded credit using standardized credit for prior learning assessments or transfer credit from other colleges, may be granted a degree with designation and a gtPathways notation on their CCCS transcript. The receiving Colorado public institution will evaluate those credits according to its standard policy. Students who wish to use credits awarded through credit for prior learning or college transfer credit to fulfill specific course requirements are responsible for consulting with the institution to which they are considering transferring to determine whether the credits they have been awarded meet the standards of the receiving institution for specific course equivalents.
