

VETERINARY TECHNOLOGY ADMISSION CHECKLIST

To be admitted to the VETERINARY TECHNOLOGY DEGREE PROGRAM, please complete the following steps:

- Step 1** Attend an informational meeting about the Veterinary Technology Program held the first Thursday of every month from 4-5 pm on the Larimer Campus in the Mount Antero building Room 131. This is an important step- this is a very good place to start!
- Step 2** Meet with a college advisor. Apply for admission to Front Range Community College and obtain a student number and PIN. Please see college catalog and schedule for instructions. Information can be found at www.frontrange.edu or on campus at the main information desk in the Mount Antero building or call Tim Hoffman in the Advising Office at (970) 204-8399.
- Step 3** Complete and submit the Intent to Enroll form which you will receive at the monthly information meeting. (Admission into the vet tech program is a separate step from admission to the college.) You **MUST** attach documentation to this form! Turn the form in to the VET offices. You will then be placed on the class list or waiting list for entry into the program. We will try to contact you within 2 weeks to let you know where you stand.
- Step 4** Complete required prerequisite courses:
**BIO 111 General College Biology with lab (4 credits) must be within 7 years*
**ENG 131 Technical Writing or ENG 121 College Composition (3 credits)*
**HPR 178 Medical Terminology (1 credit)*
MAT 107 or 103 Career Math or Math for Clinical Calculations (other courses **may be accepted)*

These courses **must** be completed **before** you can begin any VET prefix classes.

- Step 5** While you can take your additional two general education credits over the summer that you are in the program, you may want to take them while you are waiting to enroll. These are the requirements:
**COM 125 Interpersonal Communication or COM 115 Public Speaking (3 credits)*
**Arts/Humanities or Soc. Science Elective (3 credits)*

While CHE 101 (Introduction to Chemistry I) is no longer required for a VET A.A.S. degree, this course or CHE 100 (Chemistry in Context) are highly recommended for students with little or no current knowledge of chemistry. It is also recommended that students have computer competence.

You may **not enroll** in any VET prefix courses until all prerequisites are complete **AND** you have received enrollment instructions from the VET Program.

If you have any questions regarding VET program information or admission into the program contact Marti Morgan, CVT at mardie.altman@frontrange.edu or (970) 204-8145. You can also contact Dr. Elizabeth Bauer (program director) at Elizabeth.Bauer@frontrange.edu, (970) 204-8166, or Tim Hoffman in advising at (970) 204-8399.
