# GED Program at FRCC Westminster

The GED program at Front Range Community College has the instructors, the staff, and the resources to help you prepare for the GED test. Our intensive GED course provides the guidance and individual instruction needed for success. Classes are held two

evenings per week along with one evening of supported study lab. Students will work closely with the instructor and staff in creating a plan that will lead to successful completion of the GED exam.

New students are required to attend an orientation session prior to registering for the class. At orientation students will learn the details of the program and how to register, take a short assessment test, and begin making a plan for successful completion of the GED exam.
