

Student Outcomes by Demographics

Cohorts are New First-time anywhere Degree-seeking students who start in the fall.

Students are tracked three years to see if they graduate (degree or certificate) and/or transfer to a 4-year institution. Some students do both so these success rates cannot be summed.

Priority Campus in first term	Fall 2018		Fall 2017		Fall 2016				Fall 2015

Students do not necessarily graduate with the degree or major they initially declare in their first term.

Data Definitions:

New students have not attended any college before. Concurrent students are considered "New" if they return to FRCC after high school graduation.

Priority campus is the campus where they are taking the most hours. Ties are broken reverse alphabetically.

First generation is self reported as neither parent had graduated from a 4-year institution

Full-time is 12 or more hours during their first term. Later terms could change.

Graduation is earning a certificate or associates degree within three years of their first term at FRCC.

Transfer is to a 4-year institution, with or without first graduating from FRCC.
