    - Pronouns: she/her/hers
    - Full time faculty

# MEDICAL OFFICE TECH

- The goal of the MOT club is to promote comradery between classmates and hone professionalism and leadership skills.
- Past projects:
  - Bake sales
  - Craft sales
  - Vital participation at various 9Health fair events.

# WHY JOIN?

- Club involvement is a change to get to know your classmates outside of the classroom setting.
- The club is student organized. Students choose the projects.
- Fund raising events are a great way to raise money for the MOT pinning ceremony at the end of your time at FRCC. Students also have a great time creating things to sell and working with each other.
- The 9health fair events are an amazing opportunity to work with the community. Students are able to do medically oriented tasks that directly affect the public.

# THE CLUB

Initiation ☺

## Meeting times:

First meeting is organized by the faculty; club officers are elected and the club members choose the meeting dates and times.

## Time commitment

Minimal (unless we are doing a health fair).

Look for emails about club meetings.

We have fun and we help so many people!

# CLUB CONTACT

- Let us know you are interested. We'd like to organize a meeting soon.
